Linda, so sorry I did not get back to you sooner. It looks fine to me  
Thanks  
Eric

**Subject:** PLAC Condition Responsibility Summary for 02-4G2201

Good Afternoon,

This project has PLACs; a non-reporting 404 and a the Regional Water Board 401. We have a rather simple PCR Summary for which I need written concurrence by Construction, PE, Environmental, Project Manager, and Lead Quality Reviewer.

I have attached a copy of the Info Handout (which includes the permits and the PLAC Summary) and a doc of the PLAC Summary. Please let me know if you have any questions or concerns. After you have reviewed, please email your concurrence to me, or let me know what we need to change.

I really only need 1 response from Env and 1 from Construction, but will appreciate comments from any of you.

Please feel free to contact me if you need any additional information.
